

WMT Energy Policy

Over the next year we will:

- Audit energy use of all WMT facilities regularly
- Join Landcare Research's carboNZero Programme to help measure, manage and mitigate our usage.
- Implement a system to monitor and report energy use
- Implement a staff energy efficiency awareness and education programme
- Identify and implement practical and highly cost-effective energy efficiency opportunities or upgrades within 12 months of them being identified
- Ensure all future office upgrades and specifications for new premises meet minimum standards for energy efficiency
- Promote the energy efficiency awareness and education programme to staff.
